

## REFERRAL AND IDENTIFICATION OF GIFTED SERVICES

The student identification processes are separated into six stages for each of the four different eligibility categories: intellectually, artistically, and creatively gifted for students in grades 2-12, and academically gifted for students in grades 9-12. The six stages are: referral, LSC review of referral data, parental permission for testing, assessment, assessment report, and the LSC eligibility determination stage.

*The Blue Devil's Meaning of Gifted is fostering skills beyond those in the general education classroom, the possession of skills that are above the average student, and the natural ability of high intellectual, academic, artistic, and creative thinking.*

"Gifted and talented children are those identified by professionally qualified persons who by virtue of outstanding abilities are capable of high performance. These are children who require differentiated educational programs and services beyond those normally provided by the regular school program in order to realize their contributions to self and society. Children capable of high performance include those with demonstrated achievement and/or potential ability in any of the following areas: (1) general intellectual aptitude, (2) specific academic aptitude, (3) creative or productive thinking, (4) leadership ability, (5) visual and performing arts.
